DEADLINE™

Twelve hours
to find the murderer.
One false move, and
he kills again.

You are about to investigate one of the deadliest plots in the annals of crime. A locked door. A dead man. And 12 hours to solve the murder. That's where you begin. Ahead of you, a treacherous web of motives and suspicion. And only by bringing your utmost skills of logic and intuition into play can you successfully solve the case.

Working from a complete dossier on the crime and the myriad clues along the trail, you'll find yourself becoming totally immersed in the investigation. Every scrap of evidence, every lead, every turn of events is far too realistic for "game" or "fantasy." And its degree of interactivity is so highly advanced that, for the first time in the genre, the characters actually possess independent, flesh-and-blood personalities. In fact, they're so free of wrong move, one of them may do you in. Your next great adventure is neither under ground nor out in space. The real challenge is to beat DEADLINE. You'll find the case awaiting investigation at fine computer stores everywhere.

DEADLINE—First of the INTERLOGIC™ Mystery Series from Infocom, makers of ZORK™ I and ZORK II.

Hermetically sealed since 1983 inside every WITNESS package: your WITNESS disk, a suicide note, telegram, matchbook, an issue of the Santa Ana Register and the February 1938 *Nat'l Detective Gazette*.

FEBRUARY 1938, LOS ANGELES. FDR's New Deal is finally rolling. Hitler's rolling, too; this time through Austria. But as Chief Detective for a quiet burgh on the outskirts of L.A., you've got other fish to fry.

One gilt-edged society dame is dead. And now it looks like some two-bit grifter is putting the screws to her multi-millionaire old man. Then you step in, and the shakedown turns ugly. You're left with a stiff and a race against the clock to nail your suspect... unless you get nailed first!

Nobody said a sordid family affair like this was going to be a cinch. Everyone from the knock-out heiress to the poker-faced butler may end up in the slammer before it's over. Ahead of you is a Gordian knot of motives and alibis. And the only testimony you can trust is that of your own eyes—because you are The WITNESS.

**GET INSIDE A STORY.
GET ONE FROM INFOCOM!**
It's like waking up inside a story!
Load Infocom's interactive fiction

into your computer and discover yourself at the center of a world jam-packed with surprising twists, unique characters and original, logical, often hilarious puzzles.

For the first time, you're more than a passive reader. You can talk to the story, typing in full English sentences. And the story talks right back, communicating entirely in vividly descriptive prose. What's more, you can actually shape the story's course of events through your choice of actions. And you have hundreds of alternatives at every step. In fact, there's so much you can see and do, your investigation can last for weeks and even months.

To find the Infocom interactive story that's right for you, just choose any one marked with the level of difficulty listed below that best matches your current level of interactive skill.

Junior: Best introduction to interactive fiction. Written for everyone from age 9 up.

Standard: Good introductory level for adults. This is Infocom's most popular level of interactive fiction.

Advanced: A greater level of challenge. Recommended for those who've already experienced Infocom's interactive fiction.

Expert: For real diehards seeking the ultimate challenge in interactive fiction.

Then find out what it's like to get inside a story. Get one from Infocom. Because with Infocom's interactive fiction, there's room for you on every disk.

InvisiClues™ The Hint Booklet for

Introduction

What are InvisiClues?

The essence of all interactive fiction is solving problems. The purpose of InvisiClues hint booklets is to maximize your enjoyment of the story by giving you only the hints that you need to continue and complete the story.

The invisible hints generally progress from a gentle nudge in the right direction to a full answer. The questions, which naturally have to be visible, have been worded to give away as little as possible. You should not use the presence or absence of a question on a certain topic as an indication of importance, and you should not assume that long answers are associated with important questions. This booklet includes dummy questions and answers in order to minimize the problem.

How to use this booklet

If you are stuck at some point in SUSPECT, find the question that most pertains to your problem. Uncap the marker and run it once over the first hint. The writing will appear in a second or two. If you are still stumped, go on to the next hint. (Remember to recap the marker when you are done to prevent it from drying out. And by the way, these books are not immortal. InvisiClues you've developed will start to fade after six months.)

For example:

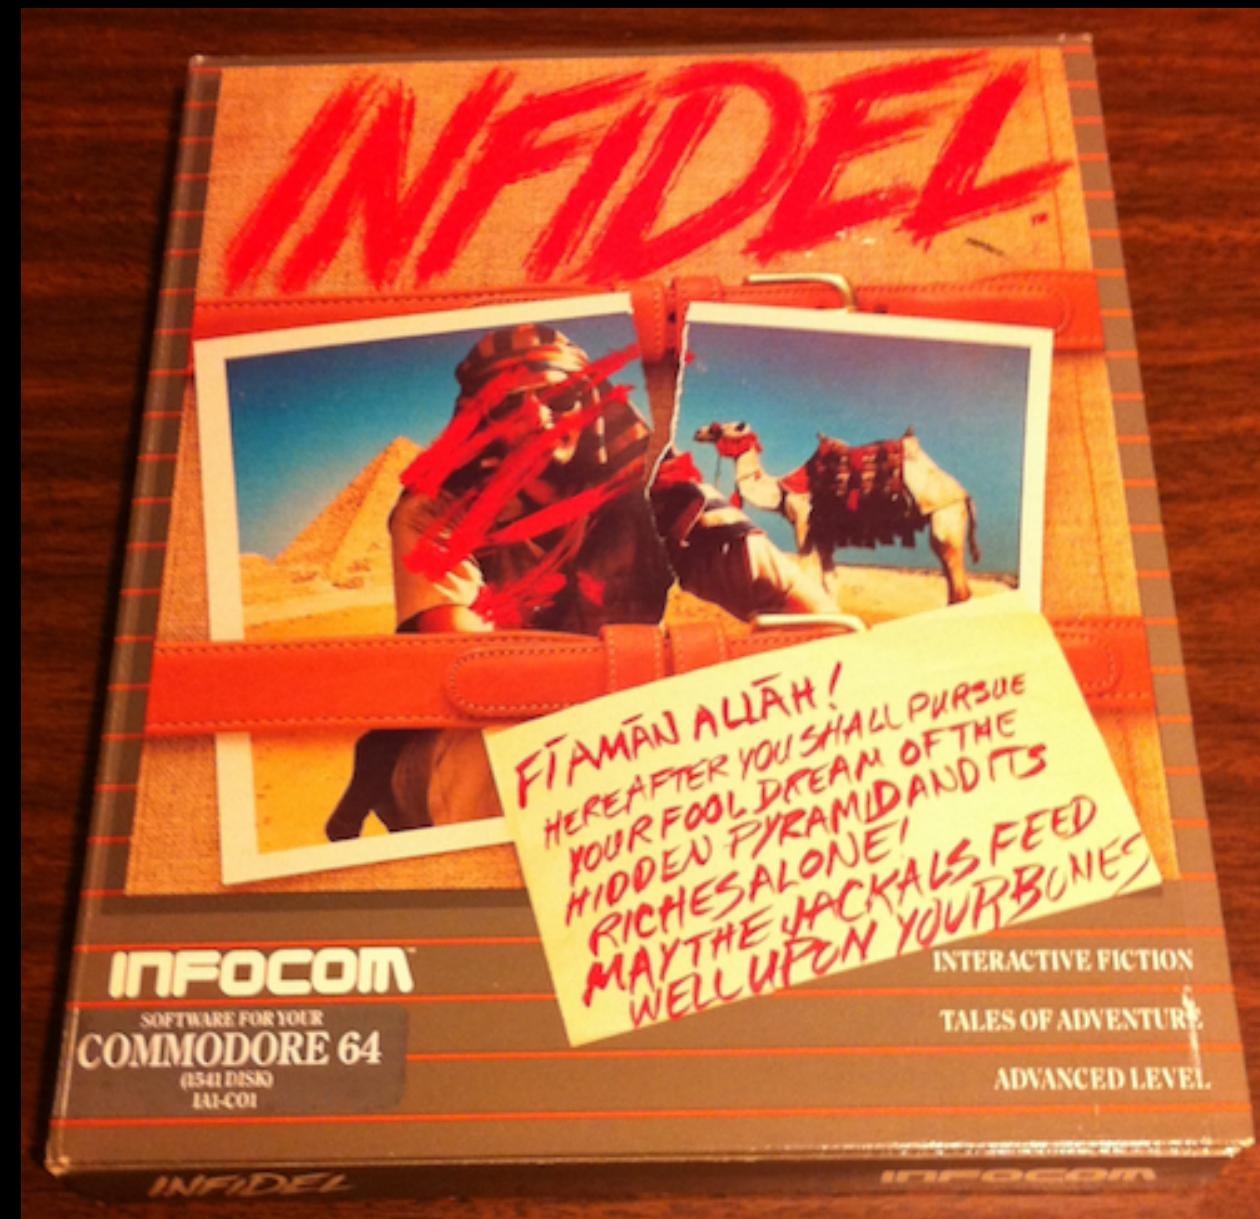

What does trusty Sgt. Duffy do after he runs after a thief on a hot day?

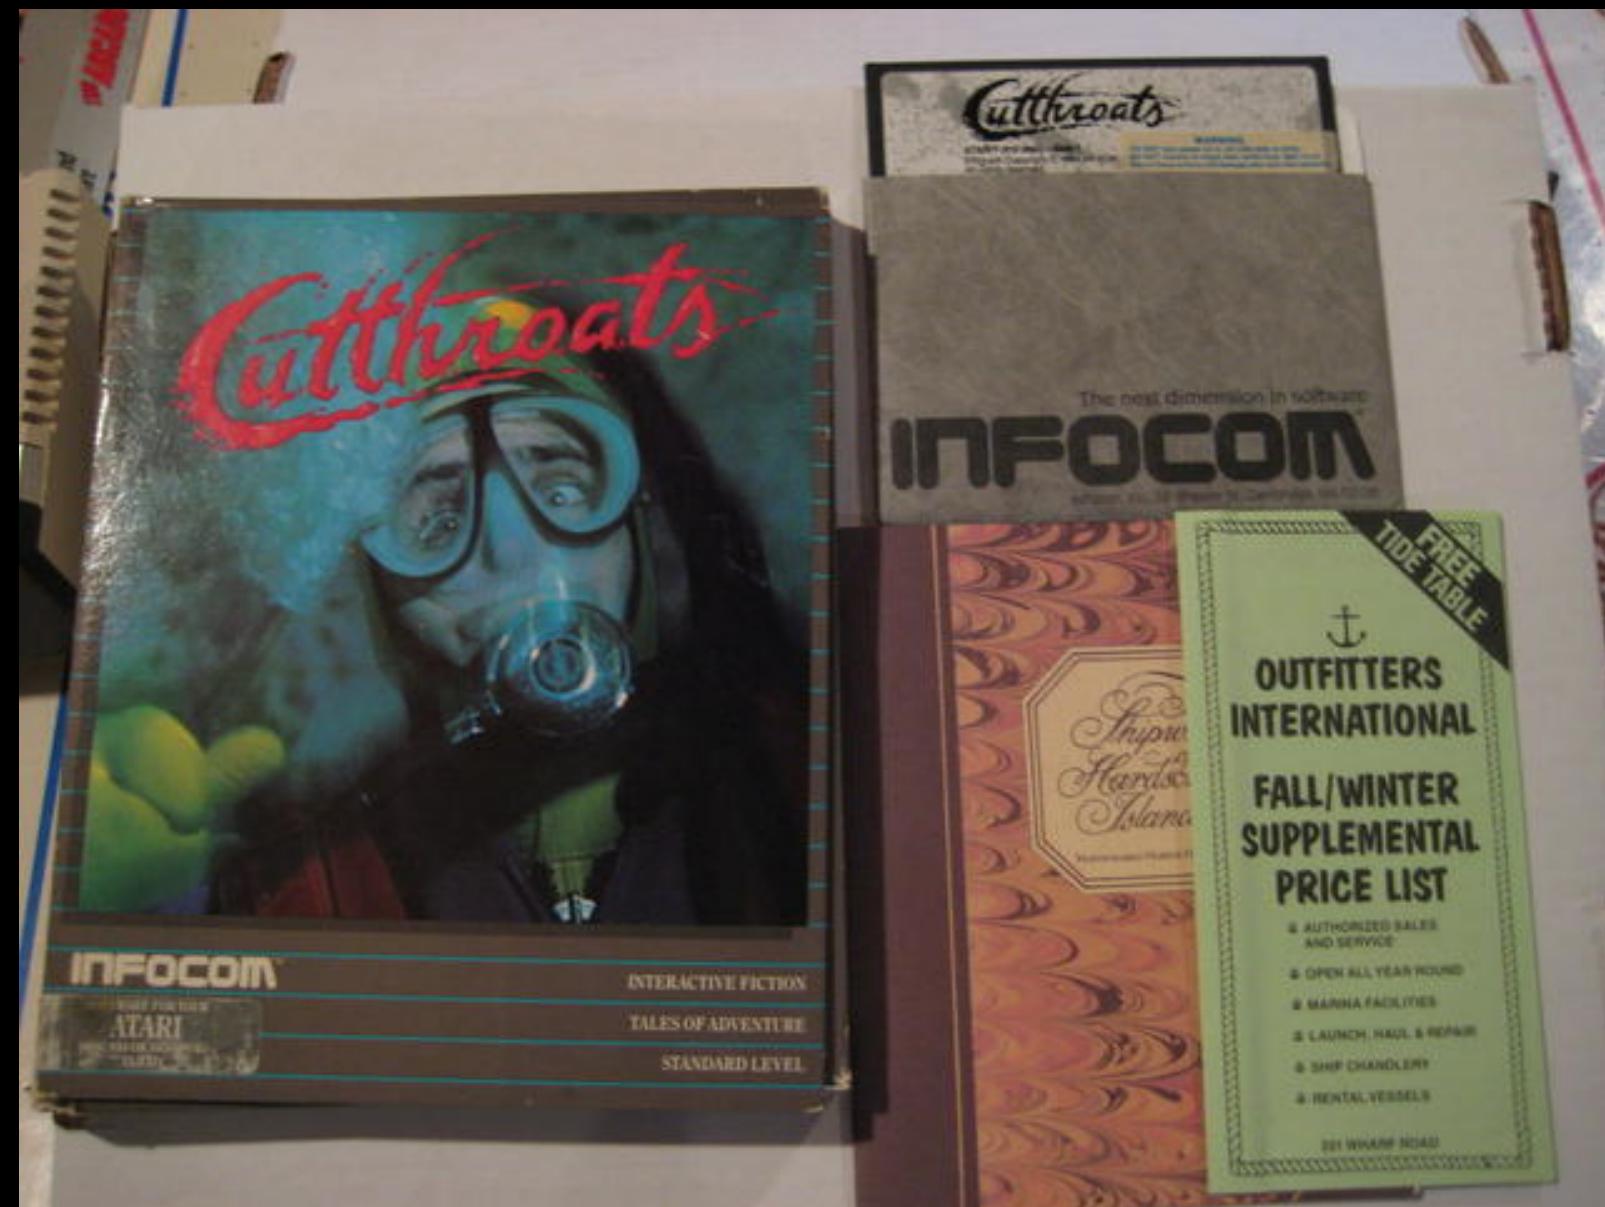

- A.
- B.
- C.

Your marker contains more than enough fluid to develop the entire booklet. However, if your marker gets lost or dries out, you can order a replacement marker for a nominal fee.

Once you have finished SUSPECT, try the things in the "For Your Amusement" section. Don't look at them before you've finished, though—they may reveal the answers to certain problems.
